The 2018 U16 OCUP Finals races are being held March 19-24, 2018 at Calabogie.

Quota

NCD quota is 36 (3 athletes per seed group (15) with total field size of 180) which is sufficient for all NCD U16s to enter if they wish, however, criteria is still required to determine seeding.

Seeding Points

- The following criteria will be used to determine the NCD team seeding for the U16 OCUP Finals.
 - Those athletes that qualified for U16 Nationals will automatically be seeded at or near the top in all disciplines
 - For those athletes that did not qualify for U16 Nationals, NCD-OSZ series points will be used in determining seeding as follows:
 - SL seeding: Best 4 of 8 SL runs plus Best SL race
 - GS seeding: Best 3 of 6 GS runs plus Best GS race
 - SG seeding: Best 1 of 2 SG runs/races
- Athletes will be seeded by the CC for SL, GS and SG taking into consideration the above criteria, but not necessarily following the rankings exactly.
- OSZ athletes are not eligible for selection however the NCD-OSZ series points used in the seeding criteria will be based on the race results which will include the OSZ athletes.

Coaching:

- The CC will appoint the Team Captain for the National Capital Division team and will name the person following the selection of the athletes.
- The CC will designate the coaches who will represent the team.
- The CC will ensure that at least one selected coach has a Development Level coaching certification.

- It is desirable to have at least one selected coach from each gender representing the team. But this may not be possible should one not be available.

Registration:

- The NCD Chair, or their designate, will submit the team entry to the ROC on behalf of the entire team. No other entries will be tolerated.
- Any breach of this policy will immediately disqualify the athlete(s) and his/her coach will be subject to sanction by the NCD Board of Directors, which may include, but is not limited to, the loss of course setting assignments for the balance of the season in any NCD sanctioned race.

Costs and transportation
